

Side Chair

Medium

Walnut, with hard pine seat frame and corner blocks

Description

The side chair features a pointed shell carving in the center of the crest rail, which terminates in splayed corner ears. The vase shaped solid splat is held in place by a molded and stepped shoe. The front and side seat rails are thumbnail molded on their top edges. The bottom edge of the front rail has also been shaped. The side rails are through tenoned into the rear stiles. Cabriole front legs terminate in exaggerated trifid feet. The rear legs have been rounded and rake backward.

Dimensions

40.25 × 20.5 × 22 in. (102.2 × 52.1 × 55.9 cm)
