### Description

This card or gaming table features a two-part hinged top of thick serpentine leaves with rounded edges and squared corners atop a frame comprised of wide front and side serpentine rails that also end at squared corners.

Four bracketed cabriole legs with plain knees taper to four carved claw and ball feet. The back rail of the frame is straight and unfinished, while the left rear leg swings out to support the top table leaf. The mahogany from which this table was in part made is of an unusual light color.
