

## Side Chair

### Medium

Mahogany, and hard pine

### Description

One of two, the second assigned accession number 1983.426. An open back with a bow shaped crest rail features tabbed and scrolled ears, and a symmetrical splat combining pierced and scrolled elements. The slip seat rests on plain undercut rails with molded upper edges that are through-tenoned and pinned to the rear stiles. Squared front and rear legs, molded on the two front corners, are braced with plain rectangular front, side, and rear stretchers. The rear legs are chamfered between the seat rails and the stretchers.
