

Basic Detail Report

Bidet

Medium

Mahogany, and hard pine

Description

A simply made bidet consisting of an original metal pan housed in a rectangular frame on four square tapered legs. The lid, which hinges to the back rail of the piece, has a molded edge on all four sides. The inner corners of the legs have been rounded to accommodate the pan.

Two eye hooks on the front rail that are old but probably not original allowed the bidet to be closed securely. The hinges have been replaced.

Dimensions

18.5 × 10.5 × 19.25 in. (47 × 26.7 × 48.9 cm)
