

Slat Back Arm Chair

Medium

Maple, and ash

Description

A five slat arm chair consisting of five graduated slats set between rear stiles with flattened ball turnings between the slats, and ending in large ball finials capped with a nipple. The undercut arms of the chair rest atop baluster turned front posts with compressed ball turnings. The feet have been lost. The chair base includes two sausage turned front stretchers, pairs of plain turned side stretchers, and a single plain turned rear stretcher. The chair is missing its second rear stretcher. The rush seat is a recent replacement.

Dimensions

45.25 × 24.38 × 20 in. (114.9 × 61.9 × 50.8 cm)
