

Basic Detail Report

Windup Sulkey, Horse and Rider

Medium

Tin, zinc, steel, cotton

Description

A toy horse, sulkey and driver of molded tin, consisting of a white painted trotting horse, with two legs attached to a small single-wheel platform. The horse's harness fastens to a green-painted two-wheeled sulkey, with a key-wound springwork mechanism within the carriage body. Atop the

sulkey perches the driver, wearing a blue coat and cap and white trousers, holding a pair of cotton string reins. When wound, the steel spring mechanism causes a gear assembly to rotate, turning the axle of the sulkey.

Dimensions

8 × 4.5 × 12 in. (20.3 × 11.4 × 30.5 cm)
